**2005 SECOND QUARTER AND SIX MONTHS RECORD RESULTS  
AND ANNOUNCEMENT OF REFINANCING  
REPORTED BY AMPHENOL CORPORATION**

Wallingford, Connecticut. July 20, 2005. Amphenol Corporation (NYSE-APH) reported today that second quarter 2005 diluted earnings per share increased 29% to a record \$.58 compared to \$.45 per share for the comparable 2004 period. Sales for the second quarter 2005 increased 15% to \$443,642,000 compared to \$387,119,000 for the 2004 period. Currency translation had the effect of increasing sales by approximately \$7.5 million in the second quarter 2005 compared to the 2004 period.

For the six months ended June 30, 2005, diluted earnings per share was \$1.09 compared to \$.85 per share for the 2004 period. Sales for the six months ended June 30, 2005 were \$853,037,000 compared to \$742,380,000 for the 2004 period. Currency translation had the effect of increasing sales by approximately \$15.2 million for the six month 2005 period when compared to the 2004 period.

In addition, on July 15, 2005 the Company completed a refinancing of its senior credit facilities. The new senior credit agreement consists of a \$750 million unsecured five year

revolving credit facility, of which approximately \$440 million was drawn at closing. The net proceeds from the refinancing were used to repay all amounts outstanding under the Company's previous senior secured credit facilities and for working capital purposes. In conjunction therewith, the Company incurred one-time expenses for the early extinguishment of debt totaling approximately \$2.5 million (before tax benefit of \$.8 million) or \$.02 per share after tax. Such one-time expenses will be reported in the third quarter and include the write-off of unamortized deferred debt issuance costs less the gain on the termination of related interest rate swap agreements.

Amphenol Chairman and CEO, Martin H. Loeffler, stated: "I am extremely pleased with our second quarter results. Sales were up 15% compared to last year's second quarter to a record \$443,642,000. The operating income margin increased from 17.8% to 19.4%. The interconnect products segment of our business, which represents 88% of our sales, was up a strong 16% over last year with excellent profitability. The growth was broad based across all of our end markets and included all major geographic regions. Growth was especially strong in the wireless infrastructure, industrial and military and aerospace markets. The excellent top line results reflect our continuing development of new application specific solutions and value added products for our customers, our increased worldwide presence with the leading companies in our target markets and acquisitions. The improved profitability in the interconnect business is also attributable to the continuing development of new application specific products as well as higher volumes and ongoing programs of cost control. The cable products segment of our business, which is primarily for broadband cable television networks and represents 12% of our sales, was up 7% over the prior year."

“In addition to excellent overall top line growth, profitability and cash flow continued to be strong. Earnings per share for the quarter were up 29% over last year, representing the fourteenth consecutive quarterly increase and a new record for the Company. Furthermore, net income, that is income after interest expense and taxes, exceeded 11% of sales, another indication of the Company’s excellent profitability. Cash flow from operations was also strong at \$49 million for the quarter.”

“In addition, in May, the Company completed the acquisition of a United States manufacturer of radio frequency interconnect products for military and aerospace related markets. The Company has annual sales of approximately \$20 million. Including this most recent acquisition, the Company has completed four acquisitions since the beginning of the year. We are excited about the growth opportunities presented by these excellent additions.”

“We are also pleased to have completed the debt refinancing. The new five year facility is unsecured and has improved pricing in recognition of the Company’s strong operating performance, substantial deleveraging and the achievement of an investment grade credit rating from a major rating agency. In addition, the new facility will provide significantly increased flexibility to pursue additional opportunities to expand and grow our business.”

“It was a good quarter in all respects. I am very proud of our organization as we continue to execute well. We have a strong position in excellent and diversified markets and continue to increase our presence with the major companies in these markets. Assuming a continuation of the current economic climate and relatively stable currency exchange rates, we are revising upward our expectation for full year 2005 results to a sales increase

in the range of 13% to 15% and earnings per share increase in the range of 23% to 26%; this compares to our prior estimates of sales and earnings per share increases of 11% to 14% and 20% to 25%, respectively. We expect third quarter results in the range of \$435 million to \$445 million and \$.56 to \$.58 for sales and EPS respectively. This guidance excludes the impact in the third quarter of 2005 of one-time expenses associated with the refinancing of \$.02 per share. We are very confident that we are in excellent markets with a great organization, and we are very excited about the future.”

The Company will host a conference call to discuss its second quarter results at 1:00 PM (ET) July 20, 2005. The toll free dial-in number to participate in this call is 888-395-9624; International dial-in number 517-623-4547; Passcode: Reardon. There will be a replay available until 5:00 PM (ET) on Friday, July 22, 2005. If you are unable to participate on the call the replay numbers are as follows: the toll free dial-in number is 800-759-4401 and International dial-in replay number is 203-369-3418

A live broadcast as well as a replay will also be available on the Internet at <http://www.amphenol.com/index.cfm/fuseaction/financial.webcasts>.

Amphenol Corporation is one of the world’s leading producers of electronic and fiber optic connectors, cable and interconnect systems. Amphenol products are engineered and manufactured in the Americas, Europe and Asia and sold by a worldwide sales and marketing organization. The primary end markets for the Company’s products are communication systems for the converging technologies of voice, video and data communications, industrial/automotive and military/aerospace applications.

Statements in this press release which are other than historical facts are intended to be “forward-looking statements” within the meaning of the Securities Exchange Act of 1934, the Private Securities Litigation Reform Act of 1995 and other related laws. While the Company believes such statements are reasonable, the actual results and effects could differ materially from those currently anticipated. Please refer to Part I, Item 1 of the Company’s Form 10-K for the year ended December 31, 2004, for some factors that could cause the actual results to differ from estimates. In providing forward-looking statements, the Company is not undertaking any duty or obligation to update these statements publicly as a result of new information, future events or otherwise.
